

Who We Are

Healthcare at Home specializes in providing assistance to our clients to help them remain independent in the comfort and security of their own home.

Healthcare at Home offers a friendly and professional approach and understands how important it is that you always feel safe and secure. Whether it's a need for companionship, where help is needed around the home, or ongoing care, we have experienced personnel available to deliver a unique service to your specific requirements.

We enjoy contact with our Clients and/or their representative who can speak to any member of our team to clarify a situation or discuss a specific requirement.

Our personnel have experience in delivering a full spectrum of care needs including dementia, Parkinson's, Alzheimers Disease, stroke patients and terminal illness.

We are licensed, insured and bonded. We are also regulated by the Virginia Department of Health so you know that you are in safe hands.

Our Caregivers

Our companions and health care providers undergo a thorough pre-employment

background investigation screening before they are hired, and undergo multiple interviews before we introduce them to you.

All applicants undergo a background investigation, which includes verification of social security number; prior employment and residence verification; a local, state, and federal criminal background investigation and a search of the sexual offender database.

Healthcare at Home understands that it is unsettling to have a perfect stranger work in your home. We want to pave the way to your peace of mind by performing these pre-employment checks. Our goal is for you to receive care from individuals of the highest integrity and character.

Free Consultation

We provide free in-home consultation to carefully assess to your needs. We carefully listen to your preferences regarding the type of characteristics and personality of a companion or health care provider you are looking for to assist you with activities of daily living and nursing needs. With your permission, we also can tailor your home care needs by consulting with your physician, social worker, health care facility staff and family members.

We understand circumstances may arise that make it difficult to remain in your home without assistance. We are available to listen to your concerns 24/7. Call us for a free consultation so we can help you maintain your independence.
